

# XPO® | Advantages that speak for themselves

## LIGHTER

XPO® keeps competing head-on in mechanical performance, yet XPO® canvas is almost half the weight than industrial grade canvas. The light weight makes XPO® the most easy-to-use canvas ever.

## STRONGER

XPO® is the strongest canvas in the market yet soft and flexible. It provides excellent lay flat characteristics, outstanding weather resistance and superior resistance to flex cracking. It retains its appearance far longer than any other canvas.

## GREENER

XPO® is 100% recyclable. Total free of Chloride, Dioxin, and plasticizer, which meet strict environmental standards and save costs in disposal on some countries.
